Forecast Pro TRAC Version 8 Upgrade Notes

This document was written for those upgrading to Forecast Pro TRAC Version 8.

If you have any questions about Forecast Pro TRAC Version 8 or need any assistance, please contact BFS technical support at +1 617 484-5050 or support@forecastpro.com.

Back Up Your Forecast Pro TRAC V7 Projects!

Before installing Forecast Pro TRAC V8 it is strongly recommended that you create copies of all of your Forecast Pro TRAC V7 projects and store them in a separate backup folder.

Projects saved in Forecast Pro TRAC V8 cannot be opened using Forecast Pro TRAC V7. Therefore, if you are sharing your projects with other Forecast Pro users, it is important that they also upgrade to Forecast Pro TRAC V8.

Installation

Installing Forecast Pro TRAC V8 on your computer will not disrupt your current installation of Forecast Pro TRAC V7. Thus, if you wish to run both versions on a single machine, you may.

If you wish to uninstall Forecast Pro TRAC V7 you can do so using the Windows Add/Remove Programs utility, either before or after you install Forecast Pro TRAC V8.

Backwards Compatibility

Forecast Pro TRAC V8 can open Forecast Pro TRAC V7 projects, however, once you save a project in Forecast Pro TRAC V8, you will NOT be able to open it in Forecast Pro TRAC V7.
